

## Classes of Membership

1. **GENERAL** membership shall be open to persons exercising active responsibility for the management, general supervision or administration of a California Airport, and who is engaged in such activity as part of their employment or ownership. A General member may retain this designation through the end of the year for which he or she has paid dues even though he or she discontinued working at the job that qualified them for the General membership status.

2. **ASSOCIATE** membership shall be open to any person that is interested in and subscribes to the purpose of the Association of California Airports. The Associate Director will represent the Associate members at the Board of Directors' meeting.

3. **CORPORATE** membership shall be open to both for profit and non-profit corporations who are engaged in activities relating to the use and promotion of airports, aviation or products that are used in airport and aviation activities.

4. **STUDENT** membership shall be open to any individuals who are engaged in the study of airport development, administration, management, or operation or in any related field of aviation (except those representing a school), or a full-time student as defined by the institution in which they are enrolled.

5. **HONORARY** membership shall be conferred by action of the membership of ACA at large, to those individuals specifically recognized for their outstanding dedication and achievement in the field of airport development, management, operations or any related field of aviation. The Board of Directors must approve nominations prior to action by the membership.

6. **GENERAL MEMBER EMERITUS** membership shall be a former General Member who has served the corporation and the aviation industry with distinction and who has retired from active airport management. The Board of Directors must approve the membership designation for those recommended for this category.

## ASSOCIATION OF CALIFORNIA AIRPORTS

## ACA Membership Application

### Purpose

The purpose of ACA is to bring together all persons who represent both publicly and privately owned airports, and all others working to foster, promote and assist the development of air transportation in the State of California through the dissemination of aeronautical information, the consideration and solution of various airport and aviation problems, and the fostering of public recognition of airports and the airport management profession.

### Membership

ACA is devoted to building a diverse membership that includes all airports in the State, taking advantage of the expertise and human resources available from participating airport. Subsequently, membership is not restricted to full time airport management personnel. Membership is open to all levels and degrees of airport management such as City Managers, Public Works Directors, Airport Land Use Commission members, and owners of private airports. ACA represents these individuals and all others involved with airports on issues that are of statewide importance.

### Goal

The ACA's goal is to "Educate, Advocate, and Assist" the aviation community. To accomplish this task the ACA actively seeks the participation of airport-related industries in determining issues that need to be addressed for the betterment of all airports, whether large or small and the individuals and companies that rely on them. Airport consultants, engineering firms and airport-based businesses are regarded as an essential part of this association. This unique and diverse "Partners in Aviation" approach has already made ACA's position stronger in our dealings with important industry issues.

### Strength

Our strength comes from our diverse membership and their active participation. However, to continue with our success we look for new member participation to make ACA an erudite and strong voice for California airports. Here's how working together can build something better:

### → Legislation

Sponsor and support California State Legislation to develop, enhance and safeguard our airports. Aside from being integral components of our nation's air transportation system, our airports are economic engines of considerable and often undervalued magnitude.

### → ACA Website

The ACA is proud to say that its website is a vehicle for keeping the membership connected and up-to-date on issues of importance as well as providing access to a vast library of pertinent information and ready feedback on issues of concern that is invaluable for the day-to-day operation of an airport.

### → Conferences

ACA hosts an annual conference, providing a wide range of information in an interactive forum that allows all attendees to participate. The conference is affordable and conducted in a manner that brings together the diverse membership of ACA and others with an interest in aviation issues. The conference provides an excellent venue to promote the betterment of the California Aviation Transportation System through the cooperative efforts of all participants.
